Work-based Learning (WBL) is designed to provide relevant experiences in all career areas that will assist students in making decisions concerning their future. Work-Based Learning placements represent the pinnacle of the Career-Related Education experience. Enrollment in a work-based learning course is an extension of the student's work in their College and Career Pathway. Credit earned for enrollment in work-based learning may count toward graduation as part of the student's cluster or pathway.

Improve the way that you use your time.

Do you ever feel like there's not enough time in the day?

We all get the same 24 hours – so why do some people seem to achieve more with their time than others? The answer: good time management.

Time management is the process of organizing and planning how to divide your time between different activities. Get it right, and you'll end up working smarter, not harder, to get more done in less time – even when time is tight and pressures are high.

5 Tips to Improved Time Management:

1. **PRIORITIZE** - Most important tasks 1st
2. **SCHEDULE** - Timing is EVERYTHING
3. **SET GOALS** - Create SMART goals
4. **CONCENTRATE** - No Distractions
